HEALTHY HAIR, FREE FROM ALL DANDRUFF

Parian Hair Soft, Fluffy, Abundant and Radiant With Life.

Unusually matted, scraggy, hair is a sign of neglect—of dandruff, the hair destroyer.

Parian Sage is a scientific preparation, based on a thorough knowledge of the hair, keeping them perfectly healthy, stop scalp itch and itching hair, and make hair grow. It supplies the hair.

Parian Sage is a tea-colored liquid, delicately perfumed—not sticky, or greasy—that comes in a fifty cent bottle at drug stores and toilet counters. Always, sold on money back if not satisfied.

Look for the "Girl with the Auburn Hair" on the package.

Get a bottle today—pour a little on a sponge or cloth and rub lightly over the hair, taking a small strand at a time—rub it into the scalp. Presto! the dandruff surely disappears; the hair is free from dust and excessive oil and is doubly beautiful—you are made comfortable. Try it now—it will not only save your hair and make it grow, but give it that incomparable glow and beauty you desire.—Adv.

Experienced Smokers "Roll Their Own"

When a man gets smoke-wise by experience, his taste craves a deep satisfaction that only the cigarettes he makes for himself, to suit his own taste, can fully gratify. He learns to roll his own fresh, fragrant cigarettes from ripe, mellow "Bull" Durham tobacco. "Rolling his own" becomes a second nature with him. He takes the keenest pleasure in fashioning his own cigarettes with his own hands, to his own liking, and is proud of his skill. He is no longer a novice, but a thirty-third degree smoke veteran in the eyes of men the world over.

GENUINE BULL DURHAM SMOKING TOBACCO

(Enough for forty hand-made cigarettes in each 5-cent sack)

Cigarettes hand-made from "Bull" Durham have a rich fragrance and smooth, mellow flavor, wonderfully comforting and satisfying. This good, pure tobacco gives complete enjoyment and lasting satisfaction to more millions of men than all other high-grade smoking tobaccos combined.

Get a 5c sack of "Bull" today and "roll your own." Then you will appreciate why enough "Bull" Durham is sold in a year to make approximately 12 BILLION cigarettes—about as many as the total annual production of all brands of ready-made cigarettes in this country. And the "Bull" Durham sales are still growing.

LIVING COSTS AND PRODUCTIVE EFFICIENCY.

One of the stark Democratic arguments during the campaign of 1912 was that the high cost of living was due chiefly, if not directly, to the iniquitous Republican tariff bill. It was drilled into the minds of the harassed common people with great persistence and so earnest did the campaign managers become in spreading this new and apparently effective propaganda that they actually came to believe it themselves and we find their representatives in Congress subsequently chopping down the Underwood duties with great enthusiasm and great embarrassment to Underwood. Between the conflicting Democratic forces in the Congress the Republican tariff bill was backed to bits and hewed out of all semblance of schedule and principle.

The Democratic tariff act now in actual operation has been described as designed (1) to remove the Republican policy of protection to home manufacturers and (2) to reduce the high cost of living.

But the high cost of living has not been reduced on the contrary, it seems to be mounting higher, and the common people are asking embarrassing questions. The Democrats themselves are constrained to admit that the tariff remedy has failed. They are looking for a new one.

Overcapitalization has been suggested, and with this as a basis it is proposed to attack industry from another quarter. The Democrats have already stripped it of the protection afforded by benevolent Republican legislation. President Wilson himself declared that American industry did not need protection because it could by its own efficiency compete with foreign industry. The Democrats now propose to strip American industry of that efficiency which according to President Wilson's own admission is its last hope by attacks upon capitalization and combination.

To what extent combination is permissible in this country, or to put it in other words, "What is a trust?" has not yet been very definitely determined. But it is certain that in order to produce the efficiency necessary for American industry to compete with European industry with the low paid labor it will be necessary that our manufacturing units, in steel industry particularly, be of sufficient size to permit the ownership of practically all the raw material and all the intermediate processes of manufacture. To the end that middlemen's profits shall be eliminated and steel produced at a cost which will properly represent that American efficiency advocated by President Wilson.

In the meantime we would advise Democratic statesmen to look elsewhere for the solution of the serious problem of the high cost of living and in their search they might profitably turn to some of the Democratic districts and not confine their peculiar reforms and fantastic experiments to the enemy's country.

HAD TASTE.

The Democratic organ of Fayette County never misses an opportunity to make a nasty remark about Colonel James Madison Guffey, all of which under the circumstances is in very bad taste.

The Fayette County Democrat is not the advocate of defender of Colonel Guffey, but it recalls that many years that picture of the man under a laurel wreath, a demand made upon him and his resources by the Fayette County Democrat. The latter gave him loyal support until the formation of the Fayette County combination at Harpersburg, which he switched to Pennsylvania in Wilson and in identical dropped the Colonel out of the political game with a dull thud.

What the Fayette Democrat expects to do is not clear. It is not clear whether it is a political or a philosophical position, but it is neither good taste nor good politics to constantly belabor the career of a dead man, especially when he was not the victim of his theater's prowess.

The first announcement is made by the Fayette Democrat that it is a safe bet that fried chicken through certain lines is missing, and we are left in doubt as to whether the line of safety should be drawn at the twilight zone or the black belt.

If the Democratic administration at Washington is really wants to do something for the common people it should pause long enough in its trust busting to smooth the egg corner.

It is to be hoped that city government will at least give us a more stable and more efficient police force.

Buy at the eggs, turkeys are cheap, any how.

The Fayette Democrat was not so kind in the matter of the Fayette Democrat. The Fayette Democrat is comparatively short, but it seems to be plenty long enough for some purposes.

Judges from the stamp orders being in the Fayette Democrat printing office. It is a big line of business with 1800 to 2000 this year. Cornell is really.

The health of the Fayette Democrat is in a state of keeping rabbits in a state until they are too ripe.

The Fayette Democrat is convinced that a advertising pays. They are not a sportsman if they got quick results.

The announcement that the Buckhannon & Northern line has been abandoned and will be completed without further delay is interesting to the Connelville as well as the Fairmont coke regions.

The President has been banished from the White House. This place is in complete possession of Hyman & Co.

The Lake Erie has a new fast freight service from Boston, Massachusetts. It already had all kinds of service from Boston, Pennsylvania.

The only consolation in the customary weekly freight wreck down toward the West Virginia line is that there is some freight to wreck.

As usual the Connelville coke region will have a prominent part in the proceedings of the Coal Mining Institute of America.

Typhoid will always bear watching and it is safer to watch it at a distance.
